June 1 – June 30	4am or 10pm	2x weekly at 25-30min per zone *Additional hand watering is needed 1x weekly	2x weekly at 30-40min per zone *Hand water dry areas 1x weekly as needed
July 1 – Oct 15	4am or 10pm	2x weekly at 35-50min per zone *Additional hand watering is needed 1x weekly	2x weekly 35-45min per zone *Hand water dry areas 1x weekly as needed

Hand Watering – Using an open ended water hose (no nozzle) flood entirely all the way around the root zone of each plant before moving onto the next plant. Repeat 3x for thorough soaking. You should be able to see water slowing its decent into the roots by round 3 if soaked properly. Spray down the leaves as well.
